Hello Kellie:

We are fine with the week of June 4. Maybe not the entire day but most of any day. We only have grinders. We do own shot blasting equipment. We have the approved paint on hand.

Subject: WCAA Access Parking Stripping

Dann,

Please know that we will be looking to stripe again approximately the week of 6/4/12. We are currently planning out the areas, it will definitely be a day or two worth of work. Actually a few areas will not require grinding out stripes instead we are being directed to traffic top so this will save and money. This phase of work will all be in the Blue Deck.

Question: our restoration sub said that shot blasting is a less aggressive for of removing stripes (and less mess), is it possible you can shot blast instead or do you not own that equipment?

Please confirm your availability and also confirm the approved paint will be in hand.

Thanks,
Kellie Copplestone
