Subject: WCAA Dust Control

Dann,

As part of the next trip will you will be required to control your dust while gridding out the striping. Last trip was terrible. Dust control is mandatory. The method of dust control is up to you. I do have the option to have royal restoration shot blast off the stripping ahead of your this trip out at your expense. The shot blaster will be here Tuesday 5/29/12 so I will need to know right away.

Thanks,
Kellie Copplestone
