Ok Kelli:

7 am is fine. I will need you to show us where we can park our trailer. I will not be there due to me working Wednesday night.

Carl Walker agreed to using the alternate product for Thurs only. I am here by 7am, so if you want to start earlier then that you will have to let me know.

Aside, We now can do level 3 Blue deck, but will have to hold off on level 7 mc deck due to the traffic topping.

Subject: Hello Kelli

Hello Kelli:

We are planning to be there Thursday to do the handicap work. I was informed by Aexcel that the blue chlorinated rubber will not be shipped for a couple weeks due to raw material delay. I did notice in the specs that Alkyd paint is excepted. So for the time being we will use Aexcel Blue Alkyd 12L-D004 for the handicap painting until we get the Chlorinated blue in. Thanks.
